SUBJECT: BLUE LANTERN LEVEL 3: POST-SHIPMENT END-USE CHECK
ON LICENSE 050071677

REF: 2006 BLUE LANTERN GUIDEBOOK

¶1. This is an Action Request. See paragraphs 2-4.

¶2. The Department's Office of Defense Trade Controls Compliance (PM/DTCC) requests Embassy's assistance in conducting a post-shipment check on license 050071677 for the export of F-100 engine aircraft parts to Japan. Embassy is requested to complete this Blue Lantern check within 45 days. Lack of response to a Blue Lantern check will affect pending and future licenses involving parties to this license.

¶3. Reason for request: The commodities requested from unfamiliar foreign consignee, Mitsubishi Cable Industries, Ltd., appear excessive.

¶4. ACTION: Embassy is requested to make inquiries with appropriate officials to determine if the Japanese Ministry of Defense (JMOD) has received the F-100 engine parts and that the articles are being used for the purpose stated on the license. Department also requests that Embassy conduct a site visit to Mitsubishi Cable Industries, Ltd. in order to provide an assessment of its business operations, on-site security, and general reliability as a recipient of United States Munitions List (USML) items. Mitsubishi Cable Industries, Ltd. POC is Osamu Murata (Managing Director) 81-3-3216-1585. The following questions are offered as suggested guidance with Mitsubishi:

Can Mitsubishi provide documentation from JMOD verifying it as the end user? Does the company have an established, legitimate customer base to which it plans to sell these commodities? Does the company keep proper, detailed records of its sales and customers? Does the company understand the restrictions on USML articles, particularly regarding re-export and retransfer?
END ACTION.
